

SC SERIES

GRADE 1 • HEAVY DUTY • ANSI A.156.13 - 2005
LIGATURE RESISTANT (LG) MORTISE LOCK TRIM

ESCUTCHEON LEVER (LGE)

ESCUTCHEON KNOB (LGX)

SECTIONAL LEVER (LGS)

SECTIONAL KNOB (LGK)

FEATURES

- ANSI A156.13-2005 Grade 1 mortise locks
- Outside lever clutch free-wheeling design.
- The lever rotates when the lever is locked preventing excessive force from being applied to the horizontal lever. This design decreases the chance of the lever being broken or damaged
- Ligature Resistant lever design helps to prevent intentional or accidental hanging
- Anti-vandal cylinder guard is standard, deters forcible removal of cylinder with any type of wrench or hammer
- Different functions available to satisfy individual security and safety requirements
- Tamper resistant concealed mounting set screws
- Non-handed, fully field reversible
- Heavy duty escutcheon and sectional trim available
- No exposed mounting screws
- Can retrofit Schlage L9000 Series mortise lock bodies
- Trim Suffixes: **S**-Lever Sectional **E**-Lever Escutcheon
K-Knob Sectional **X**-Knob Escutcheon

CERTIFICATIONS
