

PURPOSE OF GATEWAY (BLEGW-99):

To be able to access the lock even if the user (client / admin phone) is out of bluetooth range.

LOCKS COMPATIBLE WITH BLEGW-99:

PL7100
RS2100
DB9000
DB5000

K3 app sends command to gateway through internet

gateway sends command to lock through bluetooth

BLUETOOTH RANGE (approx. 30 ft.)

Use the K3 app to access the lock.

Gateway (BLEGW-99) requirements:

1. Must be plugged in to a power source (AC Adapter not included in box)
2. Must be connected to wifi. (setup through K3 app, admin phone)
3. Must be within bluetooth range of the lock.

Lock is bluetooth capable and can be accessed by phone, **IF USER IS WITHIN BLUETOOTH RANGE.** To access the lock outside bluetooth range, a gateway (BLEGW-99) is needed.
